

Town of East Fremantle - Preston Point Ward - Councillor

AMOR, Julie

I have lived in East Fremantle for 25 years, and brought up my son here. I come from a health background having worked as a registered nurse and then a counsellor most of my working life. I previously served on council for 1.5 yrs in 2014-15. I like to see accountability and transparency in local government and think of myself as having a voice of reason which means I do not always agree with the status quo.

Our council has a lack of female representation at the moment so I would like to help address that. Residents should feel confident in approaching council without fear or favour. I am interested in ensuring that our increasing numbers of senior folk are supported to live in our community as well as preserving community facilities, environment and services ensuring that community's interests are reflected in the development of the Leeuwin Barracks.
