

## Town of East Fremantle - Preston Point Ward - Councillor

### MCPHAIL, Michael

Over the last four years, East Fremantle Council has transformed. We've installed new management. Residents are better communicated with; we've entered the digital age with an e-newsletter, Facebook, and a functional website.

Major projects are underway: foreshore upgrades will soon commence, Town Hall restoration and public access improvements are underway, Richmond Quarter is now complete. And residents are better engaged in major decisions, most recently in the future of the Leeuwin Barracks.

To make East Fremantle even better, next steps include: increasing the quality and quantity of useable recreation space along our river foreshore, achieving redevelopment of the Royal George Hotel with its new owner, and increasing investment in footpath upgrades.

Educated in town planning, I have served diligently as your Deputy Mayor. Having grown up in East Fremantle, I offer the local knowledge of a long-time resident, with a perspective cast firmly towards improving our future.
