

## Town of East Fremantle - Richmond Ward - Councillor

### SPENCER, Martin

I have lived in East Fremantle with my Wife and three Sons for over 19 years. Through those years I have been heavily involved in local schools and sporting clubs. Over the years I have worked with the community to achieve their aspirations in sustainable transport and greener urban development.

I am running for Council because I am passionate about community involvement. I will also bring my passion for equality and justice, active listening and belief in the power of community.

I want to see more trees planted and I support improvements to footpaths and parks for Richmond Ward and East Fremantle. I want to help the community explore the formation of a 'Town Team' to support place making in our commercial spaces.

I look forward to hearing about your aspirations for our community and how I can support your involvement.
