FOR THE YEAR ENDED 30TH JUNE 2019

BASIS OF PREPARATION

The budget has been prepared in accordance with applicable Australian Accounting Standards (as they apply to local government and not-for-profit entities), Australian Accounting Interpretations, other authoritative pronouncements of the Australian Accounting Standards Board, the *Local Government Act 1995* and accompanying regulations. Material accounting policies which have been adopted in the preparation of this budget are presented below and have been consistently applied unless stated otherwise.

Except for cash flow and rate setting information, the budget has also been prepared on the accrual basis and is based on historical costs, modified, where applicable, by the measurement at fair value of selected non-current assets, financial assets and liabilities.

THE LOCAL GOVERNMENT REPORTING ENTITY

All funds through which the Town of East Fremantle controls resources to carry on its functions have been included in the financial statements forming part of this budget.

In the process of reporting on the local government as a single unit, all transactions and balances between those Funds (for example, loans and transfers between Funds) have been eliminated.

All monies held in the Trust Fund are excluded from the financial statements. A separate statement of those monies appears at Note 14.

2017/18 ACTUAL BALANCES

Balances shown in this budget as 2017/18 Actual are as forecast at the time of budget preparation and are subject to final adjustments.

KEY TERMS AND DEFINITIONS - NATURE OR TYPE

All land (other than exempt land) in the Town of East Fremantle is rated according to its Gross Rental Value (GRV) in townsites or Unimproved Value (UV) in the remainder of the Town of East Fremantle.

The general rates detailed for the 2018/19 financial year have been determined by Council on the basis of raising the revenue required to meet the deficiency between the total estimated expenditure proposed in the budget and the estimated revenue to be received from all sources other than rates and also considering the extent of any increase in rating over the level adopted in the previous year.

The minimum rate(s) has|have been determined by Council on the basis that all ratepayers must make a reasonable contribution to the cost of local government services/facilities.

(c) Objectives and Reasons for Differential Rating

To provide equity in the rating of properties across the Town the following rate categories have been determined for the implementation of differential rating.

Differential general rate

Description	Characteristics	Objects	Reasons
Residential GRV	This differential rate category imposes a general rate on land valued on a gross rental value basis, which is zoned, held or used for residential purposes and having improvements erected on it.	The object of this proposed rate is to apply a base differential general rate to land zoned and used for residential purposes and to act as the Town's benchmark differential rate by which all other GRV rated properties are assessed.	The reason for this rate is to ensure that all ratepayers make an equitable contribution towards the ongoing maintenance and provision of works, services and facilities throughout the Town.
Commercial GRV	This differential rate category imposes a rate on land valued on a gross rental value basis, which is zoned, held or used for commercial purposes and having improvements erected on it.	The object of this proposed rate is to apply a rate to commercial properties in order to raise additional revenue to offset the associated higher levels of services to properties in this category.	The reason for this rate is to ensure additional funding for parking infrastructure, road maintenance and construction, drainage, streetscape, litter control, urban style guides and regulatory compliance.

(d) Differential Minimum Payment

Description	Characteristics	Objects	Reasons
Residential GRV	This differential rate category imposes a general rate on land valued on a gross rental value basis, which is zoned, held or used for residential purposes.	The object of this proposed rate is to apply a base minimum payment to land zoned and used for residential purposes and to act as the Town's benchmark differential rate by which all other GRV rated properties are assessed.	The minimum payment has been determined by Council on the basis that all ratepayers must make a reasonable contribution to the cost of local government services/facilities.
Commercial GRV	This differential rate category imposes a rate on land valued on a gross rental value basis, which is zoned, held or used for commercial purposes.	The object of this proposed rate is to apply a minimum payment to commercial properties in order to raise additional revenue to offset the associated higher levels of services to properties in this category.	The minimum payment has been determined by Council on the basis that all ratepayers must make a reasonable contribution to the cost of local government services/facilities.

(e) Variation in Adopted Differential Rates to Local Public Notice

The following rates and minimum payments were previously set out in the local public notice giving notice of the intention to charge differential rates.

The Staff Leave Reserve has been added back to the calculation of net current assets in the audited financial statements in prior years. The purpose of the staff leave reserve is being changed in the 18/19 Budget to cover non-current entitlements only; therefore it has been removed from the calculation.

Reason for Adjustments

The differences between the net current assets at the end of each financial year in the rate setting statement and net current assets detailed above arise from amounts which have been excluded when calculating the budget deficiency in accordance with *Local Government (Financial Management) Regulation 32* as movements for these items have been funded within the budget estimates. These differences are disclosed as adjustments above.

SIGNIFICANT ACCOUNTING POLICIES

CURRENT AND NON-CURRENT CLASSIFICATION

In the determination of whether an asset or liability is current or non-current, consideration is given to the time when each asset or liability is expected to be settled. The asset or liability is classified as current if it is expected to be settled within the next 12 months, being the Town of East Fremantle's operational cycle. In the case of liabilities where the Town of East Fremantle does not have the unconditional right to defer settlement beyond 12 months, such as vested long service leave, the liability is classified as current even if not expected to be settled within the next 12 months. Inventories held for trading are classified as current even if not expected to be realised in the next 12 months except for land held for sale where it is held as non-current based on the Town of East Fremantle's intentions to release for sale.

TRADE AND OTHER RECEIVABLES

Trade and other receivables include amounts due from ratepayers for unpaid rates and service charges and other amounts due from third parties for goods sold and services performed in the ordinary course of business.

Receivables expected to be collected within 12 months of the end of the reporting period are classified as current assets. All other receivables are classified as non-current assets.

Collectability of trade and other receivables is reviewed on an ongoing basis. Debts that are known to be uncollectible are written off when identified. An allowance for doubtful debts is raised when there is objective evidence that they will not be collectible.

**NOTES TO AND FORMING PART OF THE BUDGET
FOR THE YEAR ENDED 30TH JUNE 2019**

2. NET CURRENT ASSETS (CONTINUED)

SIGNIFICANT ACCOUNTING POLICIES

TRADE AND OTHER PAYABLES

Trade and other payables represent liabilities for goods and services provided to the Town prior to the end of the financial year that are unpaid and arise when the Town of East Fremantle becomes obliged to make future payments in respect of the purchase of these goods and services. The amounts are unsecured, are recognised as a current liability and are normally paid within 30 days of recognition.

PROVISIONS

Provisions are recognised when the Town of East Fremantle has a legal or constructive obligation, as a result of past events, for which it is probable that an outflow of economic benefits will result and that outflow can be reliably measured.

Provisions are measured using the best estimate of the amounts required to settle the obligation at the end of the reporting period.

INVENTORIES

General

Inventories are measured at the lower of cost and net realisable value.

Net realisable value is the estimated selling price in the ordinary course of business less the estimated costs of completion and the estimated costs necessary to make the sale.

Superannuation

The Town of East Fremantle contributes to a number of superannuation funds on behalf of employees.

All funds to which the Town of East Fremantle contributes are defined contribution plans.

EMPLOYEE BENEFITS

Short-term employee benefits

Provision is made for the Town of East Fremantle's obligations for short-term employee benefits. Short term employee benefits are benefits (other than termination benefits) that are expected to be settled wholly before 12 months after the end of the annual reporting period in which the employees render the related service, including wages, salaries and sick leave. Short-term employee benefits are measured at the (undiscounted) amounts expected to be paid when the obligation is settled.

The Town of East Fremantle's obligations for short-term employee benefits such as wages, salaries and sick leave are recognised as a part of current trade and other payables in the statement of financial position. The Town of East Fremantle's obligations for employees' annual leave and long service leave entitlements are recognised as provisions in the statement of financial position.

LAND HELD FOR RESALE

Land held for development and sale is valued at the lower of cost and net realisable value. Cost includes the cost of acquisition, development, borrowing costs and holding costs until completion of development. Finance costs and holding charges incurred after development is completed are expensed.

Gains and losses are recognised in profit or loss at the time of signing an unconditional contract of sale if significant risks and rewards, and effective control over the land, are passed on to the buyer at this point.

Land held for sale is classified as current except where it is held as non-current based on Council's intentions to release for sale.

DEPRECIATION

The depreciable amount of all fixed assets including buildings but excluding freehold land, are depreciated on a straight-line basis over the individual asset's useful life from the time the asset is held ready for use. Leasehold improvements are depreciated over the shorter of either the unexpired of the lease or the estimated useful life of the improvements.

The assets residual values and useful lives are reviewed, and adjusted if appropriate, at the end of each reporting period.

An asset's carrying amount is written down immediately to its recoverable amount if the asset's carrying amount is greater than its estimated recoverable amount.

Gains and losses on disposals are determined by comparing proceeds with the carrying amount. These gains and losses are included in profit or loss in the period which they arise.

DEPRECIATION (CONTINUED)

Major depreciation periods used for each class of depreciable asset are:

Buildings	40 to 50 years
IT Equipment	4 years
Furniture and Equipment	10 years
Plant and Equipment - HACC Buses	12 years
Plant and Equipment - Heavy Fleet	11 years
Plant and Equipment - Light Fleet	5 years

FOR THE YEAR ENDED 30TH JUNE 2019**

**15. SIGNIFICANT ACCOUNTING POLICIES - OTHER
INFORMATION**

GOODS AND SERVICES TAX (GST)

Revenues, expenses and assets are recognised net of the amount of GST, except where the amount of GST incurred is not recoverable from the Australian Taxation Office (ATO).

Receivables and payables are stated inclusive of GST receivable or payable. The net amount of GST recoverable from, or payable to, the ATO is included with receivables or payables in the statement of financial position.

Cash flows are presented on a gross basis. The GST components of cash flows arising from investing or financing activities which are recoverable from, or payable to, the ATO are presented as operating cash flows.

CRITICAL ACCOUNTING ESTIMATES

The preparation of a budget in conformity with Australian Accounting Standards requires management to make judgements, estimates and assumptions that effect the application of policies and reported amounts of assets and liabilities, income and expenses.

The estimates and associated assumptions are based on historical experience and various other factors that are believed to be reasonable under the circumstances; the results of which form the basis of making the judgements about carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates.

ROUNDING OFF FIGURES

All figures shown in this statement are rounded to the nearest dollar.

COMPARATIVE FIGURES

Where required, comparative figures have been adjusted to conform with changes in presentation for the current budget year.

BUDGET COMPARATIVE FIGURES

Unless otherwise stated, the budget comparative figures shown in the budget relate to the original budget estimate for the relevant item of disclosure.

REVENUE RECOGNITION

Rates, grants, donations and other contributions are recognised as revenues when the Town of East Fremantle obtains control over the assets comprising the contributions.

Control over assets acquired from rates is obtained at the commencement of the rating period or, where earlier, upon receipt of the rates.
