

ANNUAL BUDGET 2017-2018

Adopted 18 July 2017

2017/18 BUDGET OVERVIEW

The Town of East Fremantle is required to prepare an Annual Budget in accordance with the Local Government Act 1995 and the Local Government (Financial Management) Regulations 1996.

Council has endeavoured to achieve a balanced and responsible budget which will benefit the East Fremantle community without creating an undue financial burden for ratepayers or the next generation. In setting this year's budget, Council has also been mindful of the current economic climate and believes it has set its rate increases accordingly. This year's increase of 2.0% recognises this.

We are confident that we can deliver on the community's expectations, the priorities in our Strategic Community Plan and continue to ensure the long term viability of the Town.

The elected members have worked collaboratively to prioritise the next year's activities, and are looking forward to the key projects earmarked for this financial year which include:

- Refurbishment of the Town Hall (Council Chambers & Administration centre)
- Master Planning for the East Fremantle Oval Precinct Joint funded with DSR .
- Traffic Management & Parking Audit
- Cycle, Trail & Footpath Master Plan
- Further implementation of East Fremantle Foreshore Master Plan joint funded with PDAW
 - Headlands erosion control project
 - o Interpretation node project.
- Major power upgrade John Tonkin Park
- Over \$4.4 million dollars will be spent on infrastructure improvement projects and capital programs.

Notwithstanding this year's increase, East Fremantle residential rates are still considered to be low in comparison to other metropolitan local governments.

For 2017/18 the total budget expenditure is \$16,465,575 as shown below:

Operating Expenditure	\$ 12,013,727
Capital Expenditure	\$ 4,451,848
Total	\$ 16,465,575

Operating Budget

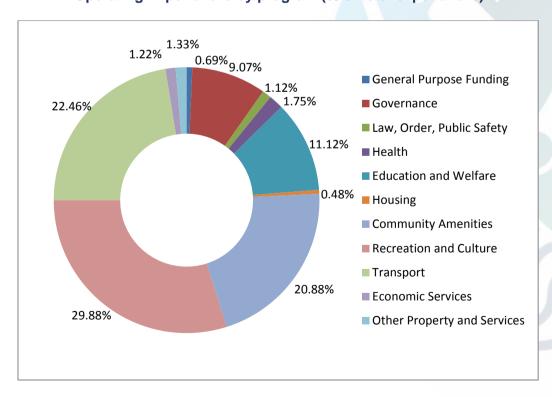

The operating budget is used for providing community services and maintaining infrastructure as well as supporting Council's governance and administration.

Services include waste management and recycling services, road maintenance, footpaths, cycleways, car parks, traffic management, bus shelters, foreshore management, drainage, street lighting, verge maintenance, street cleaning, street trees and tree watering, graffiti removal, neighbourhood watch, parks and gardens maintenance, playgrounds, barbeques, shared book and toy library services with the City of Fremantle, boat launching ramp, mooring pens, sporting and recreational facilities, home and community care services, support for sporting clubs and community organisations and events such as the East Fremantle Festival (George Street).

In keeping with the Town's top five ranking of metro Councils for waste management performance, Council has budgeted to continue providing weekly recycling collections, three green waste collections and one general verge waste collection (including e-waste and mattresses) during 2017/18.

In addition to waste services, we also provide a free tip pass, which can be used at Henderson Waste Recovery Park for landfill and hazardous waste, the Regional Resource Recovery Centre at Canning Vale for green waste. As part of our commitment to improving environmental sustainability the Town diverts approximately 70% of waste from landfill significantly reducing greenhouse gas emissions.

Operating Expenditure by program (% of total expenditure)

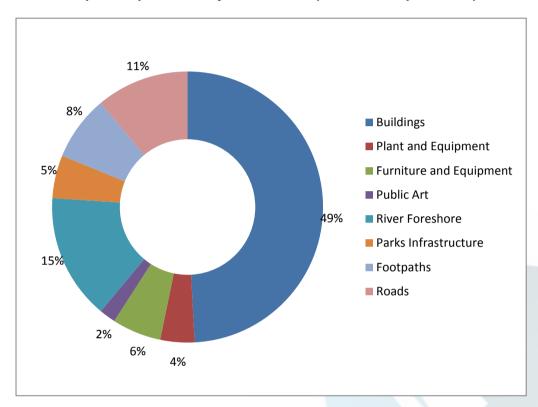

Capital Budget

The Town has budgeted for an extensive capital works program for the 2017/18 financial year to improve community facilities.

Capital Expenditure by Asset class (% of total expenditure)

MAYOR AND COUNCILLORS

The following Elected Members represent the town's residents and ratepayers. Home addresses and contact details are provided to assist you if you wish to contact your elected member for information or help with a Council matter.

1. SIGNIFICANT ACCOUNTING POLICIES

(a) Basis of preparation

The budget has been prepared in accordance with applicable Australian Accounting Standards (as they apply to local government and not-for-profit entities), Australian Accounting Interpretations, other authorative pronouncements of the Australian Accounting Standards Board, the *Local Government Act 1995* and accompanying regulations. Material accounting policies which have been adopted in the preparation of this budget are presented below and have been consistently applied unless stated otherwise.

Except for cash flow and rate setting information, the budget has also been prepared on the accrual basis and is based on historical costs, modified, where applicable, by the measurement at fair value of selected non-current assets, financial assets and liabilities.

Critical accounting estimates

The preparation of a budget in conformity with Australian Accounting Standards requires management to make judgements, estimates and assumptions that effect the application of policies and reported amounts of assets and liabilities, income and expenses.

The estimates and associated assumptions are based on historical experience and various other factors that are believed to be reasonable under the circumstances; the results of which form the basis of making the judgements about carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates.

The local government reporting Entity

All funds through which the Town of East Fremantle controls resources to carry on its functions have been included in the financial statements forming part of this budget.

In the process of reporting on the local government as a single unit, all transactions and balances between those Funds (for example, loans and transfers between Funds) have been eliminated.

All monies held in the Trust Fund are excluded from the financial statements. A separate statement of those monies appears at Note 17 to the budget.

(b) 2016/17 actual balances

Balances shown in this budget as 2016/17 Actual are as forecast at the time of budget preparation and are subject to final adjustments.

(c) Rounding off figures

All figures shown in this budget, other than a rate in the dollar, are rounded to the nearest dollar.

(d) Comparative figures

Where required, comparative figures have been adjusted to conform with changes in presentation for the current budget year.

(e) Budget comparative figures

Unless otherwise stated, the budget comparative figures shown in the budget relate to the original budget estimate for the relevant item of disclosure.

1. SIGNIFICANT ACCOUNTING POLICIES (Continued)

(f) Forecast fair value adjustments

All fair value adjustments relating to remeasurement of financial assets at fair value through profit or loss (if any) and changes on revaluation of non-current assets are impacted upon by external forces and not able to be reliably estimated at the time of budget adoption.

Fair value adjustments relating to the re-measurement of financial assets at fair value through profit or loss will be assessed at the time they occur with compensating budget amendments made as necessary.

It is anticipated, in all instances, any changes upon revaluation of non-current assets will relate to non-cash transactions and as such, have no impact on this budget document.

(g) Rates, grants, donations and other contributions

Rates, grants, donations and other contributions are recognised as revenues when the Town of East Fremantle obtains control over the assets comprising the contributions.

Control over assets acquired from rates is obtained at the commencement of the rating period or, where earlier, upon receipt of the rates.

(h) Goods and services tax (GST)

Revenues, expenses and assets are recognised net of the amount of GST, except where the amount of GST incurred is not recoverable from the Australian Taxation Office (ATO).

Receivables and payables are stated inclusive of GST receivable or payable. The net amount of GST recoverable from, or payable to, the ATO is included with receivables or payables in the statement of financial position.

Cash flows are presented on a gross basis. The GST components of cash flows arising from investing or financing activities which are recoverable from, or payable to, the ATO are presented as operating cash flows.

(i) Superannuation

The Town of East Fremantle contributes to a number of superannuation funds on behalf of employees.

All funds to which the Town of East Fremantle contributes are defined contribution plans.

(i) Cash and cash equivalents

Cash and cash equivalents include cash on hand, cash at bank, deposits available on demand with banks, other short term highly liquid investments that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value and bank overdrafts.

Bank overdrafts are shown as short term borrowings in current liabilities in Note 4 - Net Current Assets.

(k) Trade and other receivables

Trade and other receivables include amounts due from ratepayers for unpaid rates and service charges and other amounts due from third parties for goods sold and services performed in the ordinary course of business.

Receivables expected to be collected within 12 months of the end of the reporting period are classified as current assets. All other receivables are classified as non-current assets.

Collectability of trade and other receivables is reviewed on an ongoing basis. Debts that are known to be uncollectible are written off when identified. An allowance for doubtful debts is raised when there is objective evidence that they will not be collectible.

1. SIGNIFICANT ACCOUNTING POLICIES (Continued)

(I) Inventories

General

Inventories are measured at the lower of cost and net realisable value.

Net realisable value is the estimated selling price in the ordinary course of business less the estimated costs of completion and the estimated costs necessary to make the sale.

Land held for resale

Land held for development and sale is valued at the lower of cost and net realisable value. Cost includes the cost of acquisition, development, borrowing costs and holding costs until completion of development. Finance costs and holding charges incurred after development is completed are expensed.

Gains and losses are recognised in profit or loss at the time of signing an unconditional contract of sale if significant risks and rewards, and effective control over the land, are passed on to the buyer at this point.

Land held for sale is classified as current except where it is held as non-current based on Council's intentions to release for sale.

(m) Fixed assets

Each class of fixed assets within either property, plant and equipment or infrastructure, is carried at cost or fair value as indicated less, where applicable, any accumulated depreciation and impairment losses.

Mandatory requirement to revalue non-current assets

Effective from 1 July 2012, the *Local Government (Financial Management) Regulations* were amended and the measurement of non-current assets at Fair Value became mandatory.

During the year ended 30 June 2013, the Town of East Fremantle commenced the process of adopting fair value in accordance with the Regulations.

Whilst the amendments initially allowed for a phasing in of fair value in relation to fixed assets over three years, as at 30 June 2015 all non-current assets were carried at fair value in accordance with the the requirements.

Thereafter, each asset class must be revalued in accordance with the regulatory framework established and the Town of East Fremantle revalues its asset classes in accordance with this mandatory timetable.

Relevant disclosures, in accordance with the requirements of Australian Accounting Standards, have been made in the financial report as necessary.

Initial recognition and measurement between mandatory revaluation dates

All assets are initially recognised at cost and subsequently revalued in accordance with the mandatory measurement framework detailed above.

In relation to this initial measurement, cost is determined as the fair value of the assets given as consideration plus costs incidental to the acquisition. For assets acquired at no cost or for nominal consideration, cost is determined as fair value at the date of acquisition. The cost of non-current assets constructed by the Town of East Fremantle includes the cost of all materials used in construction, direct labour on the project and an appropriate proportion of variable and fixed overheads.

Individual assets acquired between initial recognition and the next revaluation of the asset class in accordance with the mandatory measurement framework detailed above, are carried at cost less accumulated depreciation as management believes this approximates fair value. They will be subject to subsequent revaluation of the next anniversary date in accordance with the mandatory measurement framework detailed above.

1. SIGNIFICANT ACCOUNTING POLICIES (Continued)

(m) Fixed assets (continued)

Revaluation

Increases in the carrying amount arising on revaluation of assets are credited to a revaluation surplus in equity. Decreases that offset previous increases of the same asset are recognised against revaluation surplus directly in equity. All other decreases are recognised in profit or loss.

Land under roads

In Western Australia, all land under roads is Crown land, the responsibility for managing which, is vested in the local government.

Effective as at 1 July 2008, Council elected not to recognise any value for land under roads acquired on or before 30 June 2008. This accords with the treatment available in *Australian Accounting Standard AASB 1051* Land Under Roads and the fact *Local Government (Financial Management) Regulation 16(a)(i)* prohibits local governments from recognising such land as an asset.

In respect of land under roads acquired on or after 1 July 2008, as detailed above, *Local Government (Financial Management) Regulation 16(a)(i)* prohibits local governments from recognising such land as an asset.

Whilst such treatment is inconsistent with the requirements of AASB 1051, *Local Government* (Financial Management) Regulation 4(2) provides, in the event of such an inconsistency, the *Local Government (Financial Management) Regulations* prevail.

Consequently, any land under roads acquired on or after 1 July 2008 is not included as an asset of the Town

1. SIGNIFICANT ACCOUNTING POLICIES (Continued)

(m) Fixed assets (continued)

Depreciation

The depreciable amount of all fixed assets including buildings but excluding freehold land, are depreciated on a straight-line basis over the individual asset's useful life from the time the asset is held ready for use. Leasehold improvements are depreciated over the shorter of either the unexpired period of the lease or the estimated useful life of the improvements.

Major depreciation periods used for each class of depreciable asset are:

Buildings 40 - 50 year (2.5% - 2.0%)

IT Equipment 4 years (25%)
Furniture and Equipment 10 years (10%)
Plant and Equipment - HACC Buses 12 years (8.5%)
Plant and Equipment - Heavy Fleet 11 years (9%)
Plant and Equipment - Light Fleet 5 years (20%)
Plant and Equipment - Other 5 years (20%)
Infrastructure Various

The assets residual values and useful lives are reviewed, and adjusted if appropriate, at the end of each reporting period.

An asset's carrying amount is written down immediately to its recoverable amount if the asset's carrying amount is greater than its estimated recoverable amount.

Gains and losses on disposals are determined by comparing proceeds with the carrying amount. These gains and losses are included in profit or loss in the period which they arise.

1. SIGNIFICANT ACCOUNTING POLICIES (Continued)

(n) Fair value of assets and liabilities

When performing a revaluation, the Town of East Fremantle uses a mix of both independent and management valuations using the following as a guide:

Fair value is the price that the Town of East Fremantle would receive to sell the asset or would have to pay to transfer a liability, in an orderly (i.e. unforced) transaction between independent, knowledgeable and willing market participants at the measurement date.

As fair value is a market-based measure, the closest equivalent observable market pricing information is used to determine fair value. Adjustments to market values may be made having regard to the characteristics of the specific asset. The fair values of assets that are not traded in an active market are determined using one or more valuation techniques. These valuation techniques maximise, to the extent possible, the use of observable market data.

To the extent possible, market information is extracted from either the principal market for the asset (i.e. the market with the greatest volume and level of activity for the asset or, in the absence of such a market, the most advantageous market available to the entity at the end of the reporting period (ie the market that maximises the receipts from the sale of the asset after taking into account transaction costs and transport costs).

For non-financial assets, the fair value measurement also takes into account a market participant's ability to use the asset in its highest and best use or to sell it to another market participant that would use the asset in its highest and best use.

Fair value hierarchy

AASB 13 requires the disclosure of fair value information by level of the fair value hierarchy, which categorises fair value measurement into one of three possible levels based on the lowest level that an input that is significant to the measurement can be categorised into as follows:

Level 1

Measurements based on quoted prices (unadjusted) in active markets for identical assets or liabilities that the entity can access at the measurement date.

Level 2

Measurements based on inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly or indirectly.

Level 3

Measurements based on unobservable inputs for the asset or liability.

The fair values of assets and liabilities that are not traded in an active market are determined using one or more valuation techniques. These valuation techniques maximise, to the extent possible, the use of observable market data. If all significant inputs required to measure fair value are observable, the asset or liability is included in Level 2. If one or more significant inputs are not based on observable market data, the asset or liability is included in Level 3.

Valuation techniques

The Town of East Fremantle selects a valuation technique that is appropriate in the circumstances and for which sufficient data is available to measure fair value. The availability of sufficient and relevant data primarily depends on the specific characteristics of the asset or liability being measured. The valuation techniques selected by the Town of East Fremantle are consistent with one or more of the following valuation approaches:

1. SIGNIFICANT ACCOUNTING POLICIES (Continued)

(n) Fair value of assets and liabilities (continued)

Market approach

Valuation techniques that use prices and other relevant information generated by market transactions for identical or similar assets or liabilities.

Income approach

Valuation techniques that convert estimated future cash flows or income and expenses into a single discounted present value.

Cost approach

Valuation techniques that reflect the current replacement cost of an asset at its current service capacity.

Each valuation technique requires inputs that reflect the assumptions that buyers and sellers would use when pricing the asset or liability, including assumptions about risks. When selecting a valuation technique, the Town of East Fremantle gives priority to those techniques that maximise the use of observable inputs and minimise the use of unobservable inputs. Inputs that are developed using market data (such as publicly available information on actual transactions) and reflect the assumptions that buyers and sellers would generally use when pricing the asset or liability and considered observable, whereas inputs for which market data is not available and therefore are developed using the best information available about such assumptions are considered unobservable.

The mandatory measurement framework imposed by the *Local Government (Financial Management) Regulations* requires, as a minimum, all assets to be revalued at least every 3 years. Relevant disclosures, in accordance with the requirements of Australian Accounting Standards have been made in the budget as necessary.

(o) Financial instruments

Initial recognition and measurement

Financial assets and financial liabilities are recognised when the Town of East Fremantle becomes a party to the contractual provisions to the instrument. For financial assets, this is equivalent to the date that the Town of East Fremantle commits itself to either the purchase or sale of the asset (ie trade date accounting is adopted).

Financial instruments are initially measured at fair value plus transaction costs, except where the instrument is classified 'at fair value through profit or loss', in which case transaction costs are expensed to profit or loss immediately.

Classification and subsequent measurement

Financial instruments are subsequently measured at fair value, amortised cost using the effective interest rate method, or cost.

Amortised cost is calculated as:

- the amount in which the financial asset or financial liability is measured at initial recognition;
- (b) less principal repayments and any reduction for impairment; and
- (c) plus or minus the cumulative amortisation of the difference, if any, between the amount initially recognised and the maturity amount calculated using the effective interest rate method.

1. SIGNIFICANT ACCOUNTING POLICIES (Continued)

(o) Financial instruments (continued)

The effective interest method is used to allocate interest income or interest expense over the relevant period and is equivalent to the rate that discounts estimated future cash payments or receipts (including fees, transaction costs and other premiums or discounts) through the expected life (or when this cannot be reliably predicted, the contractual term) of the financial instrument to the net carrying amount of the financial asset or financial liability. Revisions to expected future net cash flows will necessitate an adjustment to the carrying value with a consequential recognition of an income or expense in profit or loss.

(i) Financial assets at fair value through profit and loss

Financial assets are classified at "fair value through profit or loss" when they are held for trading for the purpose of short term profit taking. Assets in this category are classified as current assets. Such assets are subsequently measured at fair value with changes in carrying amount being included in profit or loss.

(ii) Loans and receivables

Loans and receivables are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market and are subsequently measured at amortised cost. Gains or losses are recognised in profit or loss.

Loans and receivables are included in current assets where they are expected to mature within 12 months after the end of the reporting period.

(iii) Held-to-maturity investments

Held-to-maturity investments are non-derivative financial assets with fixed maturities and fixed or determinable payments that the Town of East Fremantle management has the positive intention and ability to hold to maturity. They are subsequently measured at amortised cost. Gains or losses are recognised in profit or loss.

Held-to-maturity investments are included in current assets where they are expected to mature within 12 months after the end of the reporting period. All other investments are classified as non-current.

(iv) Available-for-sale financial assets

Available-for-sale financial assets are non-derivative financial assets that are either not suitable to be classified into other categories of financial assets due to their nature, or they are designated as such by management. They comprise investments in the equity of other entities where there is neither a fixed maturity nor fixed or determinable payments.

They are subsequently measured at fair value with changes in such fair value (i.e. gains or losses) recognised in other comprehensive income (except for impairment losses). When the financial asset is derecognised, the cumulative gain or loss pertaining to that asset previously recognised in other comprehensive income is reclassified into profit or loss.

Available-for-sale financial assets are included in current assets, where they are expected to be sold within 12 months after the end of the reporting period. All other available for sale financial assets are classified as non-current.

(v) Financial liabilities

Non-derivative financial liabilities (excl. financial guarantees) are subsequently measured at amortised cost. Gains or losses are recognised in the profit or loss.

1. SIGNIFICANT ACCOUNTING POLICIES (Continued)

(o) Financial instruments (continued)

Impairment

A financial asset is deemed to be impaired if, and only if, there is objective evidence of impairment as a result of one or more events (a "loss event") having occurred, which has an impact on the estimated future cash flows of the financial asset(s).

In the case of available-for-sale financial assets, a significant or prolonged decline in the market value of the instrument is considered a loss event. Impairment losses are recognised in profit or loss immediately. Also, any cumulative decline in fair value previously recognised in other comprehensive income is reclassified to profit or loss at this point.

In the case of financial assets carried at amortised cost, loss events may include: indications that the debtors or a group of debtors are experiencing significant financial difficulty, default or delinquency in interest or principal payments; indications that they will enter bankruptcy or other financial reorganisation; and changes in arrears or economic conditions that correlate with defaults.

For financial assets carried at amortised cost (including loans and receivables), a separate allowance account is used to reduce the carrying amount of financial assets impaired by credit losses. After having taken all possible measures of recovery, if management establishes that the carrying amount cannot be recovered by any means, at that point the written-off amounts are charged to the allowance account or the carrying amount of impaired financial assets is reduced directly if no impairment amount was previously recognised in the allowance account.

Derecognition

Financial assets are derecognised where the contractual rights for receipt of cash flows expire or the asset is transferred to another party, whereby the Town of East Fremantle no longer has any significant continual involvement in the risks and benefits associated with the asset.

Financial liabilities are derecognised where the related obligations are discharged, cancelled or expired. The difference between the carrying amount of the financial liability extinguished or transferred to another party and the fair value of the consideration paid, including the transfer of non-cash assets or liabilities assumed, is recognised in profit or loss.

(p) Impairment of assets

In accordance with Australian Accounting Standards the Town of East Fremantle assets, other than inventories, are assessed at each reporting date to determine whether there is any indication they may be impaired.

Where such an indication exists, an impairment test is carried out on the asset by comparing the recoverable amount of the asset, being the higher of the asset's fair value less costs to sell and value in use, to the asset's carrying amount.

Any excess of the asset's carrying amount over its recoverable amount is recognised immediately in profit or loss, unless the asset is carried at a revalued amount in accordance with another standard (e.g. AASB 116) whereby any impairment loss of a revaluation decrease in accordance with that other standard.

1. SIGNIFICANT ACCOUNTING POLICIES (Continued)

(p) Impairment of assets (continued)

For non-cash generating assets such as roads, drains, public buildings and the like, value in use is represented by the depreciated replacement cost of the asset.

At the time of adopting this budget, it is not possible to estimate the amount of impairment losses (if any) as at 30 June 2018.

In any event, an impairment loss is a non-cash transaction and consequently, has no impact on this budget document.

(q) Trade and other payables

Trade and other payables represent liabilities for goods and services provided to the Town prior to the end of the financial year that are unpaid and arise when the Town of East Fremantle becomes obliged to make future payments in respect of the purchase of these goods and services. The amounts are unsecured, are recognised as a current liability and are normally paid within 30 days of recognition.

(r) Employee benefits

Short-term employee benefits

Provision is made for the Town of East Fremantle's obligations for short-term employee benefits. Short term employee benefits are benefits (other than termination benefits) that are expected to be settled wholly before 12 months after the end of the annual reporting period in which the employees render the related service, including wages, salaries and sick leave. Short-term employee benefits are measured at the (undiscounted) amounts expected to be paid when the obligation is settled.

The Town of East Fremantle's obligations for short-term employee benefits such as wages, salaries and sick leave are recognised as a part of current trade and other payables in the statement of financial position. The Town of East Fremantle's obligations for employees' annual leave and long service leave entitlements are recognised as provisions in the statement of financial position.

Other long-term employee benefits

Provision is made for employees' long service leave and annual leave entitlements not expected to be settled wholly within 12 months after the end of the annual reporting period in which the employees render the related service. Other long-term employee benefits are measured at the present value of the expected future payments to be made to employees. Expected future payments incorporate anticipated future wage and salary levels, durations or service and employee departures and are discounted at rates determined by reference to market yields at the end of the reporting period on government bonds that have maturity dates that approximate the terms of the obligations. Any remeasurements for changes in assumptions of obligations for other long-term employee benefits are recognised in profit or loss in the periods in which the changes occur.

The Town of East Fremantle's obligations for long-term employee benefits are presented as non-current provisions in its statement of financial position, except where the Town of East Fremantle does not have an unconditional right to defer settlement for at least 12 months after the end of the reporting period, in which case the obligations are presented as current provisions.

1. SIGNIFICANT ACCOUNTING POLICIES (Continued)

(s) Borrowing costs

Borrowing costs are recognised as an expense when incurred except where they are directly attributable to the acquisition, construction or production of a qualifying asset. Where this is the case, they are capitalised as part of the cost of the particular asset until such time as the asset is substantially ready for its intended use or sale.

(t) Provisions

Provisions are recognised when the Town of East Fremantle has a legal or constructive obligation, as a result of past events, for which it is probable that an outflow of economic benefits will result and that outflow can be reliably measured.

Provisions are measured using the best estimate of the amounts required to settle the obligation at the end of the reporting period.

(u) Leases

Leases of fixed assets where substantially all the risks and benefits incidental to the ownership of the asset, but not legal ownership, are transferred to the Town of East Fremantle, are classified as finance leases.

Finance leases are capitalised recording an asset and a liability at the lower amounts equal to the fair value of the leased property or the present value of the minimum lease payments, including any guaranteed residual values. Lease payments are allocated between the reduction of the lease liability and the lease interest expense for the period.

Leased assets are depreciated on a straight live basis over the shorter of their estimated useful lives or the lease term.

Lease payments for operating leases, where substantially all the risks and benefits remain with the lessor, are charged as expenses in the periods in which they are incurred.

Lease incentives under operating leases are recognised as a liability and amortised on a straight line basis over the life of the lease term.

(v) Investment in associates

An associate is an entity over which the Town of East Fremantle has significant influence. Significant influence is the power to participate in the financial operating policy decisions of that entity but is not control or joint control of those policies. Investments in associates are accounted for in the financial statements by applying the equity method of accounting, whereby the investment is initially recognised at cost and adjusted thereafter for the post-acquisition change in the Town of East Fremantle's share of . net assets of the associate. In addition, the Town of East Fremantle's share of the profit or loss of the associate is included in the

The carrying amount of the investment includes, where applicable, goodwill relating to the associate. Any discount on acquisition, whereby the Town of East Fremantle's share of the net fair value of the associate exceeds the cost of investment, is recognised in profit or loss in the period in which the investment is acquired.

1. SIGNIFICANT ACCOUNTING POLICIES (Continued)

(w) Investment in associates (continued)

Profits and losses resulting from transactions between the Town of East Fremantle and the associate are eliminated to the extent of the Town of East Fremantle's interest in the associate.

When the Town of East Fremantle's share of losses in an associate equals or exceeds its interest in the associate, the Town of East Fremantle discontinues recognising its share of further losses unless it has incurred legal or constructive obligations or made payments on behalf of the associate. When the associate subsequently makes profits, the Town of East Fremantle will resume recognising its share of thse profits once its share of the profits equals the share of the losses not recognised.

(x) Interests in joint arrangements

Joint arrangements represent the contractual sharing of control between parties in a business venture where unanimous decisions about relevant activities are required.

Separate joint venture entities providing joint venturers with an interest to net assets are classified as a joint venture and accounted for using the equity method. Refer to note 1(o) for a description of the equity method of accounting.

Joint venture operations represent arrangements whereby joint operators maintain direct interests in each asset and exposure to each liability of the arrangement. The Town of East Fremantle's interests, in the assets, liabilities, revenue and expenses of joint operations are included in the respective line items of the financial statements. Information about the joint ventures is set out in Note 20.

(y) Current and non-current classification

In the determination of whether an asset or liability is current or non-current, consideration is given to the time when each asset or liability is expected to be settled. The asset or liability is classified as current if it is expected to be settled within the next 12 months, being the Town of East Fremantle's operational cycle. In the case of liabilities where the Town of East Fremantle does not have the unconditional right to defer settlement beyond 12 months, such as vested long service leave, the liability is classified as current even if not expected to be settled within the next 12 months. Inventories held for trading are classified as current even if not expected to be realised in the next 12 months except for land held for sale where it is held as non-current based on the Town of East Fremantle's intentions to

(b) Statement of objective

In order to discharge its responsibilities to the community, Council has developed a set of operational and financial objectives. These objectives have been established both on an overall basis, reflected by the Town's Community Vision, and for each of its broad activities/programs.

GOVERNANCE

Objective:

To provide a decision making process for the efficient allocation of scarce resources.

Activities:

Includes theactivities of members of Council and the administrative support available assisting elected members and ratepayers on matters which do not concern specific council services but are strategic in nature.

GENERAL PURPOSE FUNDING

Objective:

To collect revenue to allow for the allocation to services.

Activities:

Rating, General Purpose Government Grants and interest revenue.

LAW, ORDER, PUBLIC SAFETY

Objective:

To provide services to ensure bushfire prevention, animal control and community safety.

Activities:

Supervision and enforcement of various local laws and acts relating to fire prevention, animal control and other aspects of public safety including emergency services.

HEALTH

Objective:

To provide an operational framework for environmental and community health.

Activities

Inspection of food outlets and their control, food quality testing, pest control, noise control, waste disposal compliance and child health services.

EDUCATION AND WELFARE

Objective:

To provide assistance to senior citizens welfare and home and community care.

Activities:

Provision and maintenance of home and community care programs including meals on wheels, in home care, home maintenance, senior outings, respite and school holiday programs.

HOUSING

Objective:

To assist with housing for staff and the community.

Activities:

Provision and maintenance of residential rental properties.

2. REVENUES AND EXPENSES (Continued)

(b) Statement of objective (Continued)

COMMUNITY AMENITIES

Objective:

To provide community amenities and other infrastructure as required by the community.

Activities:

Rubbish collection, recycling and disposal, joint maintenance of SMRC waste management facility, administration of Town Planning Schemes, heritage protection and townscapes, maintenance of urban stormwater drainage and protection of the environment.

RECREATION AND CULTURE

Objective:

To plan, establish and efficiently manage sport and recreation infrastructure and resources which will help the social well being and health and community.

Activities

The provision and maintenance of various community infrastructure including public halls, recreation grounds, sports pavillions, playgrounds, parks, gardens, beaches and the joint operation of the City of Fremantle Library.

TRANSPORT

Objective:

To provide safe, effective and efficient transport infrastructure to the community.

Activities:

Construction and maintenance of streets, roads, footpaths, depots, cycleways, street trees, parking facilities, traffic control, cleaning and lighting of streets.

ECONOMIC SERVICES

Objective:

To help promote the Town and improve its economic wellbeing.

Activities:

The regulation and provision of tourism, area promotion activities and building control.

OTHER PROPERTY & SERVICES

Objective:

To monitor and control plant and depot operations, and to provide other property services not included elsewhere.

Activities:

Private works operation, plant operating costs, depot operations and unclassified property functions.

3. NOTES TO THE STATEMENT OF CASH FLOWS

(a) Reconciliation of cash

(b)

For the purposes of the statement of cash flows, cash includes cash and cash equivalents, net of outstanding bank overdrafts. Estimated cash at the end of the reporting period is as follows:

7. INFORMATION ON BORROWINGS

(a) Borrowing repayments

The Town of East Fremantle does not have any long term borrowings as at 2016/17.

7. INFORMATION ON BORROWINGS (Continued)

(b) New borrowings - 2017/18

Particulars/Purpose	Institution	Loan type	Term (years)	Interest rate %	Amount borrowed budget \$	Total interest & charges \$	Amount used budget \$	Balance unspent \$
Swan Yacht Club SSL	WATC	Fixed	10	TBA	500,000	TBA	500,000	0
					500,000	0	500,000	0

(c) Unspent borrowings

The Town has no borrowing and therefore are no unspent borrowing funds as at 30th June 2017 nor is it expected to have unspent borrowing funds as at 30th June 2018.

(d) Overdraft

The Town has not utilised an overdraft facility during the financial year although an overdraft facility of \$100,000 with the Commonwelath Bank does exist. It is not anticipated that this facility will be required to be utilised during 2017/18.

8(a). RATING INFORMATION

All land except exempt land in the Town of East Fremantle is rated according to its Gross Rental Value (GRV) in townsites or Unimproved Value (UV) in the remainder of the Town of East Fremantle.

The general rates detailed above for the 2017/18 financial year have been determined by Council on the basis of raising the revenue required to meet the deficiency between the total estimated expenditure proposed in the budget and the estimated revenue to be received from all sources other than rates and also considering the extenet of any increase in rating over the level adopted in the previous year.

The minimum rates have been determined by Council on the basis that all ratepayers must make a reasonable contribution to the cost of the Local Government services/facilities.

Objectives and reasons for differential rating

To provide equity in the rating of properties across the Town the following rate categories have been determined for the implementation of differential rating.

Differential General Rate & Minimum Payments

Description	Characteristics	Objects	Reasons
Residential	This differential rate category	The object of this proposed rate is to	The reason for this rate is to ensure that all ratepayers make a reasonable
Improved and	imposes a general rate on land	apply a base differential general rate to	or minimum contribution towards the ongoing maintenance and provision
Not Improved	valued on a gross rental value	land zoned and used for residential	of works, services and facilities throughout the Town. The proposed rate in
	basis, which is zoned, held or	purposes and to act as the Town's	the dollar of GRV value for this category is 0.066640 with a minimum rates
	used for residential purposes	benchmark differential rate by which all	amount of \$1,055. This will apply to 3,251 or 96% of the Town's rateable
