

## EAST FREMANTLE OVAL REVITALISATION PROJECT

The Town of East Fremantle recently collaborated with residents, community members and sporting and community groups to develop a Revitalisation Vision Plan of the East Fremantle Oval Precinct.

In May 2018 the Town of East Fremantle engaged consultants GHD Pty Ltd to undertake the consultation and community design forum process.

The consultant team reviewed the many reports and studies that had previously been undertaken and in September 2018 held the Community Design Forum (Charrette).

The recreation precinct – which includes the entire ‘A’ Class Reserve bound by Moss, Fletcher, Allen and Marmion Streets – is an important place in our community.

The precinct includes Locke Park, Sumpton Green Community Centre, East Fremantle Bowling Club, East Fremantle Croquet Club and the East Fremantle Football Club.

Open and interactive community sessions were held at the East Fremantle Bowling Club during:

- Sunday 8th & 16th of September 2018 (repeated session)
- Monday 17th to Wednesday 19th September 2018

A key focus of the consultation was to encourage all interested members of the community to participate. Understanding that not all residents had time to attend workshops, the consultant team at GHD Pty Ltd designed an online forum via the East Fremantle Oval Project Facebook page, to allow followers of the Town on to take part in a virtual design forum.

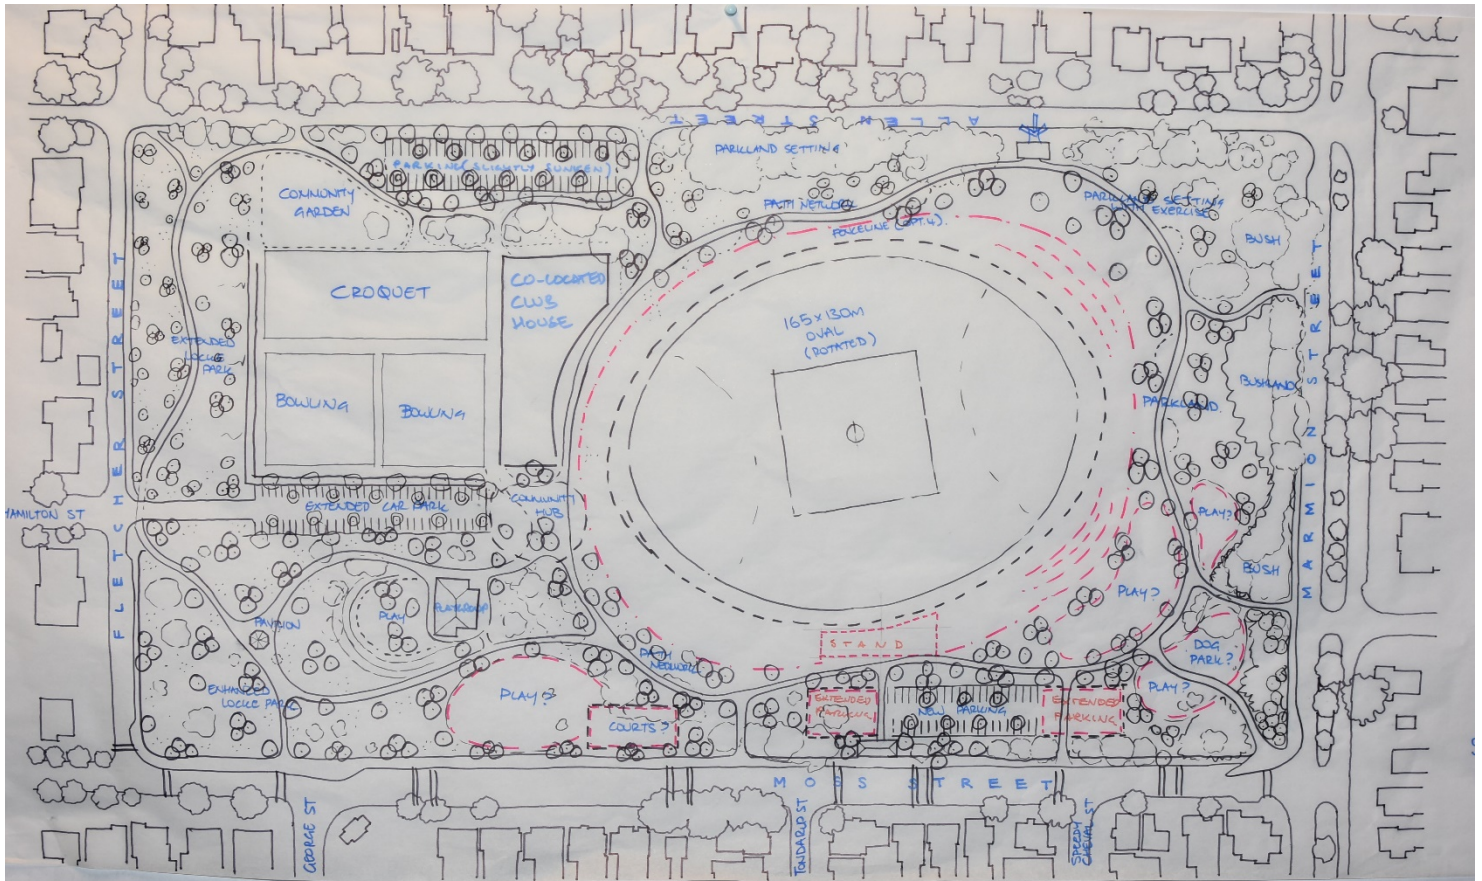

Revitalisation of the East Fremantle Oval Precinct (the Precinct) has been identified as a key priority project by residents, stakeholders and the various communities of the Town of East Fremantle.

The workshops investigated a range of scenarios, and a variety of options within those scenarios to maximise the use of the Precinct.

The result of the workshops was the development of four (4) options, designed by workshop participants which were then further revised with a “Community Preferred Option” being presented.

See over the page.

Community Preferred Option

The Town of East Fremantle staff and elected members thank all community members and stakeholders who participated in the Community Design Forum to develop a preferred vision for revitalising the East Fremantle Oval Precinct.

The concept design (image above) is a culmination of the information gathered from all the sessions.

Although the workshops have concluded there is more work to do on the concept design and further information about the next steps will be posted to the website in coming weeks.

GHD are currently finalising the draft report for Council consideration.

It is the Town's intention that once Council has reviewed and discussed the report with GHD, it will be made available for community comment.

Our intention is to advertise the report in December, with comments to be due back to the Town by February 2019.
